

CÉSAR MALUF

JUNIOR BACKEND / FULL-STACK DEVELOPER

Brasília, Brazil | cesarcfwmaluf@gmail.com | [linkedin.com/in/cesarcfw](https://www.linkedin.com/in/cesarcfw) | github.com/Cesarcfw | Portfolio

PROFESSIONAL SUMMARY

Final-semester Computer Science student with hands-on experience building and maintaining internal systems, dashboards, SQL routines, system integrations, and process automations. Focused on backend development with Node.js, TypeScript, REST APIs, and relational databases, with frontend experience to deliver complete web applications. Based in Brasília, Brazil; open to Remote, LATAM, and worldwide contractor opportunities.

PROFESSIONAL EXPERIENCE

MTEC Energia — IT Intern — Systems Development and Automation

Sep 2025 – Present

- Develop and maintain internal systems, dashboards, and integrations using JavaScript, Vue.js, Node.js, Node-RED, and MySQL.
- Build and maintain SQL queries for data processing and integration of Sienge ERP information into internal reports and dashboards.
- Create automation and integration workflows with Node-RED and Make, connecting user interfaces, databases, and operational processes.
- Support applications running on Ubuntu Server with Apache, PM2, and Cloudflare, including troubleshooting and operational assistance.

MTEC Energia — Young Apprentice — Systems Development and Automation

Sep 2024 – Sep 2025

- Contributed significantly to the initial development of e-simon, an internal management and monitoring solution for EV-charging operations in residential buildings.
- Built dashboards, forms, tables, filters, and registration workflows with JavaScript, Vue.js, HTML, CSS, Node-RED, and MySQL.
- Created automations with Node-RED and Make and helped develop and maintain the public e-simon website with WordPress and Elementor.

SELECTED PROJECTS

Full-Stack Portfolio | portfolio-kohl-mu.vercel.app — **React, TypeScript, Node.js, Express, MySQL**. Web application with a separate API, admin dashboard, JWT/bcrypt authentication, Socket.IO updates, GitHub integration, and cloud deployment.

e-simon — Corporate Project — **Vue.js, JavaScript, Node-RED, MySQL**. Contributed to the initial build and ongoing evolution of a management and monitoring platform; source code and business data are private.

TECHNICAL SKILLS

Backend: Node.js, JavaScript, TypeScript, Express, REST APIs, JWT authentication, system integrations

Data: SQL, MySQL, PostgreSQL, relational databases, data processing

Frontend & automation: Vue.js, React, HTML, CSS, Node-RED, Make

Infrastructure: Git, GitHub, Linux, Ubuntu Server, Apache, PM2, Cloudflare

EDUCATION & LANGUAGES

Bachelor of Science in Computer Science: UDF Centro Universitário — expected Dec 2026

Languages: Portuguese (native); English (intermediate / professional working proficiency)
